Sea Eagle Guarantee

Congratulations on purchasing a Sea Eagle product! With over 40 years of experience in designing, selling and using these quality inflatables, we're confident that you are going to love your Sea Eagle and we're ready to proudly stand behind them.

Sea Eagle Warranty

All Sea Eagle products come standard with a 3 year warranty against any manufacturing defect that begins the date that your product is delivered. Sea Eagle will refuse delivery on all packages without a valid return authorization number and will not be responsible for the shipping or handling charges. To obtain a return authorization number, please contact Sea Eagle directly unless you purchased from an authorized dealer/reseller in which case you should contact them for more information.

Sea Eagle must inspect equipment in order to determine if there is a defect. In the event that an item must be shipped back to us for inspection, Sea Eagle will only reimburse the standard return shipping charge through FedEx, UPS or the U.S. Post Office at published shipping rates. Retail shipping outlets like The UPS Store will not be reimbursed and you will be responsible for handling and packing charges.

The Sea Eagle warranty does not apply to products that are manufactured by Minn Kota or Torqeedo. These products are covered by their own, respective warranties. Please refer to the manufacturer's warranty of each product for details.

If you received an item damaged, please call the shipping carrier to report damaged merchandise. Do not return damaged merchandise until it has been inspected by the carrier. Sea Eagle will be notified by the carrier when they have completed their inspection and if necessary, Sea Eagle will arrange for the repair or replacement of damaged merchandise.

Contact Us

Unlike many other companies today we pride ourselves on answering the phone and helping you with any concerns, questions or special ordering needs that you may have!

Feel free to give us a call at 1-800-748-8066 and we will be happy to talk with you!
Our business hours are Monday to Friday from 9-5 (EST).

Operating Your QuikSail

With the addition of our Sea Eagle QuikSail you can easily turn your kayak into a unique sailing vessel. Kayak sailing enhances the paddling experience and is great for both touring and exploring.

Although this manual depicts the Sea Eagle QuikSail being used with our various types of Sea Eagle Kayaks, please note though that the Sea Eagle QuikSail is a UNIVERSAL kayak sail and can be used with just about any type of kayak on the market today. In addition to kayaks you can also use the Sea Eagle QuikSail with our LongBoard & PaddleSki.

The QuikSail easily deploys in just under one minute and breaks down to just 43" for convenient storage in either the bow or stern. The QuikSail sails up to 45 degrees left or right.

You can adjust the position of the sail to the left or right to tack downwind by either pushing against the legs of the frame with your feet, or by pulling the frame at the handles with your hands. Use your paddle to guide and steer your kayak.

Assembly

QuikSail Includes:
Neil Pryde Sail
5' Rope-Stay System
Velcro Strap
Folding Frame
Storage Bag

Place the QuikSail in the bow of your kayak so that its far enough forward that you can brace your feet against the frame.

Begin by unfolding the frame to full length and insert the halves for each pole.

Run the rope-stay around and then through the middle of the frame just below the sail.

Locate the openings at the bottom of the sail and feed a pole from the wider end of the frame into each one of the openings on the sail. It is best to feed both poles of the frame into the sail at the same time until the frame is fully inserted.

Adjust the clip at the end of the rope-stay and then secure it to the D-Ring on the opposite side located forward of the seat. For kayaks that are not equipped with D-Rings you can secure the clip to the loop on the base of a deluxe inflatable seat.

Rope-Stay System
Use a simple overhand knot and secure the rope-stay to one of the D-Rings located forward of the seat. For kayaks that are not equipped with D-Rings, tie one end of the rope-stay to the loop on the base of a deluxe inflatable seat as shown.

The rope-stay system supports the QuikSail for hands free operation and assembly is now complete.

TIP: Brace your feet against the bottom of the frame to steady and support the QuikSail.

Rollup & Storage

The easiest and most compact way to store the QuikSail is to unfold the frame, roll the sail around it, slide it into the included storage bag and secure with the drawstring at the top. Make sure the sail is dry prior to storage.

Optional Accessories

Deluxe Inflatable Seat
Made with a strong nylon fabric and two cushions for superior comfort and support. This deluxe seat is compatible with all of our Sea Eagle kayaks. This seat is required if you are using the QuikSail in a kayak that is not equipped with D-Rings.

The QuikSail also comes standard with a velcro strap to make transportation of a fully assembled QuikSail even easier.

Child's Life Vest
Children are required by law to wear life jackets in many jurisdictions. Designed for children 50-90 lbs. in weight, this U.S. Coast Guard life jacket features secure belts for a comfortable, secure fit.

Simply roll the sail around the frame and secure it with the velcro strap around the sail to prevent it from catching wind while transporting.

Life Vests
Sea Eagle life vests are super comfortable and buoyant. Sea Eagle life vests are type III PFDs and are approved by the U.S. Coast Guard. We offer various styles and adjustable sizes and always recommend having a life vest for every passenger.
